

Buckeye American Legion College 2019 Final Report
4/4/2020

Committee Members: Holly Lewis, Ken LaVoy, Bob White
Consultants: Mike Blackwell, Jose Rivera
Advisor: Department Adjutant Suzette Heller

The 2020 year of BALC successfully kicked off at Mid-Winter conference with 40 new students, bringing our current enrollment to 12 students. The feedback from our classes was generally positive with great feedback regarding future topics students would like to see.

Due to the COVID 19 situation, the committee has decided to hold our April practical semester virtually. Students have been instructed on what they need to submit and have been given a choice of 6 conference calls to attend to complete their requirements for the semester. They only need to attend one call and submit their work to receive credit. If you or someone you know is a currently enrolled student and they did not get an email with instructions, please email BuckeyeALC@ohiolegion.com so we can correct the student's email address and get them the information they need to participate.

The 2020 National American Legion College application has been emailed to all BALC graduates and has been posted on the BALC Alumni Facebook group.

We encourage all members of the DEC to enroll in BALC. It is a requirement to be recommended for National American Legion College. Please encourage all of your Post members to sign up as well. You can sign up at any time during the year. We have created an online registration for new students that can be found at:
